Victory Again Perches Upon the Arms of the Japanese Hosts. Major Oba Killed.

(By Associated Fress.)

TOKIO, June 28-1 A. M.—After a hot light, which lasted for six nours, yesterday morning, June 27th, the Takushan Jivision of the Japanese army completely defeated five battalions of Ausstan infantry, which, supported by two restments of cavairy and sixteen guns occupied Fen Shu Ling, some twenty mise morthwest of Sin Yen. The Ruesians mally fell back in the direction of blif-Aucheng. The Japanese canadities aggregated about one hundred killed and wounded. Major Oba was killed during the battle.

ST. PETERSBURG, June 28.—The Emperor has received the following dispatch from General Kuropatkin, dated Liso Yang, June 27th:

"The Japanese attacked our forces occupying Mo-Tien, Fen-Shui and Ta-Passes June 26th. Our infantry and cavairy retreated, persuaded that the advancing divisions of the Japanese army which were operating against each of the three passes were stronger than our detachments. In the attack on Ta-Pass the Japanese guards, besides other regiments, participated. The Japanese made a frontal and flank attack in considerable force on both sides of this position. The Japanese troops occupied Fen-Shui and Mo-Tien Passes during the morning of June 27th.

"Our forces, which retreated from Fen-Shui Pass, were attacked by small detachments of Japanese. They were, however, easily repulsed.

Shul Pass, were attacked by small detachments of Japanese. They were, however, easily repulsed.

"After pushing back our advance guard during the evening of June 25th from Vandia Pudze (on the Slu-Yen-Hal-Cheng road) to Ta Pass, the Japanese continued their advance this morning against our position in a defile. For some time the attack of the Japanese infantry brigade was repelled. Three battalions were engaged in the frontal attack. But being menaced by other troops engaged in a flanking movement, our forces retreated. "Reconnoitering parties report that one portion of the southern Japanese army is moving northeastward, with the intention of joining General Kuroki's force.

"At noon to-day our cavalry was holy engaged near Seu-Yu-Chen.

"All the reports of the last few days state that the forces of the Japanese arrayed against our Manchurlan army consist of eight or nine Infantry divisions and several brigades of reserves, which also occupy positions in the fighting line."

Mo-Tien Pass and Fen-Shui Pass are about due east of Liao Yang. Ta Pass is midway between and north of Mo-Tien and Fen-Shui Passes, and is between Liao Yang and Mukden, and about seventy-five miles from the railroad connecting Liao Yang and Mukden. It will thus be seen that the Japanese forces, which have occupied the passacs mentioned, are turning the left flank of the Russain position at Liao Yang and are threatening the railroad connecting Liao Yang and Mukden.

General Kuropatkin Has Decided to Withdraw to Northward. News From Port Arthur.

(By Associated Press.)

ST. PETERSBURG, June 28—1.10 P. M.—The Associated Press is informed on good authority that General Ruropatkin has decided to withdraw neithward. This move gives the Russians the advantage of being nearer their base of satisfies and places the Japanese at the disadvantage of having longer lines of communication. It is pointed out that Kuropathin no longer prevents a lunction of the enemy's forces by remaining at Tarche-Klao, as he might thereby imperative safety of his troops, as the character of the fighting at Ta Fass and Fen Shul Pass, June 2th, shows the Japanese are in strong force uncomfortably near the Russian flank.

News from the Port Arinar squadron is eagerly awaited. The city is full of tumors, chiefly based on foreign tees grams. A report that Rear-Aumiral Without, in command of the naval lorces at fort Arthur, sailed off after giving battle to the Japanese, receives the most credence. Without is known to have full authority to leave Port Arthur if he deems it advisable, and he possibly preferred not risking a return to the harbor, which might again be blocked, preventing his egress at a critical moment. night the gas bag of Santos-Dumont's
airthip was cut and slashed in such a
manner as to preclude all possibility of its
being repaired in time to allow an ascension on July 4th. The work was apparently done with a jack Ruife. There
are at least twenty long rips in the bag,
and Professor Carl Meyers, who has
charge of the aeronautic centests, declares to-day that it will take at least
two weeks to report the damage.

The big gas bag had not yet been taken

Parls. Being of an adhesive material, the
bag was hung in folds from slats nailed
near the top of the crate, and in this
way was prevented from becoming a solid
mass because of its own weight. There
were several folds of the bag over each
slat, and the vandal drew his knife across
those, cutting through from two to four
thicknesses of the material with each
slash. The work was evidently done in
haste, as there were about a dozen slats
covered with folds of the bag, and only
four or five of them were cut. When
the damage was discovered a messenger
was sent to Mr. Dumont at the Hamilton
Hotel, and he hurried to the scene.

"Well," he said, after a critical examiingtion of the damaged bag, "it is just as

NOT MUCH PLEASED.

Said That Workingmen Get Little Comfort From Republicans.

(From Our Regular Correspondent.) WASHINGTON, D. C., June 28.—The labor plank in the Republican platform is highly satisfactory to the anti-union Is highly satisfactory to the anti-union men, which probably means that it is the reverse of being what the laboring men themselves would like to have. Mr. Daniel Davenport who is the representative in this city of the American Anti-Boycott Association, said to-day that his association were satisfied with the declaration of the platform against the unions or Indoor trusts, which, it is declared, "must not be permitted to infringe on the rights of the people." "There is not a word in the platform endorsing the eight-hour, or the anti-injunction bill," said Mr. Davenport." "The former has repeatedly pussed a Republication of the property of the corner has repeatedly pussed a Republication.

dorsing the cight-hour or the anti-minutation bill," said Mr. Davenport. The former has repeatedly passed a Republican House, and in the last Congress was favorably reported to a Republican Senate by a committee having a Republican Senate by a committee having a Republican senate force of the control of the last House by General Grosvenor, of Chlo, and passed by a Republican majority. It was again introduced in the last House by General Grosvenor, to tho, and passed by a Republican majority. It was again introduced last session by General Grosvenor, but has not yet been reported from the committee. The cight-hour bill has been referred to the Department of Commerce and Labor and as Secretary Cortelyou is the chairman of the Republican National Committee, in view of the silence of the platform on this subject, it is safe to say the report will be unfavorable to the bill."

Still, Mr. Davenport thinks the employers of the country should pay attention to the Denocratic Convention, in order to insure that no plank indorsing these bills is incorporated into the platform.

"Last winter the labor leaders represented that President Roosevelt was in favor of the cight-hour bill," said Mr. Davenport, "I understand that the platform was submitted to him and that he approved it prior to the conyention. It does not look as though the claims of the labor leaders were well founded."

It is believed that about everybody will agree that the workingmen cai of find much in the Republican platform that will please them.
